

## **REMARKS**

The present response is intended to be fully responsive to the rejection raised in the Office Action, and is believed to place the application in condition for allowance. Further, the Applicants do not acquiesce to any portion of the Office Action not particularly addressed. Favorable reconsideration and allowance of the application is respectfully requested.

In the Office Action, the Office noted that (i) claims 1-21 are pending; (ii) claims 20 and 21 are allowed; (iii) claims 1, 3, 11, 13, 18 and 19 are rejected; and (iv) claims 2, 4-10, 12 and 14-17 are objected to. In view of the above amendments and the following discussion, the Applicants submit that none of the claims now pending in the application are anticipated under the provisions of 35 U.S.C. §102 or obvious under the provisions of 35 U.S.C. §103. Thus, Applicants believe that all of these claims are now in condition for allowance.

## **OBJECTIONS**

The Office objected to independent claim 20 under 37 C.F.R. § 1.75(i) because lines 3-6 thereof should have additional indentations as components of the mobile receiver. As set forth in the amendment above, the Applicants amend independent claim 20 to be in compliance with 37 CFR § 1.75(i). Thus, the Applicants request that the objection to claim 20 be withdrawn.

## **ALLOWABLE CLAIMS**

The Applicant thanks the Office for indicating dependent claims 2, 4-10, 12 and 14-17 are allowable if rewritten in independent form including all of the limitations of their rejected base claim and any intervening claims. In view of this, the Applicants:

- amend independent claim 1 to incorporate the allowable subject matter of dependent claim 2, thereby placing the now currently-amended independent claim 1 in allowable form;
- cancel dependent claim 2;
- amend dependent claim 3 to attend to ministerial formatting matters;

- amend dependent claim 4 into independent form and incorporating all the elements of the independent claim 1, thereby placing the now currently-amended independent claim 4 in allowable form;
- amend dependent claim 6 into independent form and incorporating all the elements of the independent claim 1, thereby placing the now currently-amended independent claim 6 in allowable form;
- amend dependent claim 5 to now depend from currently-amended independent claim 6, and to attend to ministerial formatting matters;
- amend independent claim 11 to incorporate the allowable subject matter of dependent claim 12, thereby placing the now currently-amended independent claim 11 in allowable form;
- cancel dependent claim 12;
- amend dependent claim 14 into independent form and incorporating all the elements of the independent claim 11, thereby placing the now currently-amended independent claim 14 in allowable form;
- amend dependent claim 15 into independent form and incorporating all the elements of the independent claim 11, thereby placing the now currently-amended independent claim 15 in allowable form;
- add new dependent claims 22-27, each of which ultimately depends from currently-amended independent claim 4;
- add new dependent claims 28-33, each of which ultimately depends from currently-amended independent claim 6;
- add new dependent claims 34-38, each of which ultimately depends from currently-amended independent claim 14; and
- add new dependent claims 39-43, each of which ultimately depends from currently-amended independent claim 15.

Accordingly, each of the currently-amended independent claims 1, 4, 6, 11, 14 and 15 are in allowable form. Each of the dependent claims 3 and 7-10 ultimately depends from currently-amended independent claim 1. Each of the dependent claims 13 and 16-19 ultimately depends from currently-amended independent claim 11. Each

of the dependent claims 22-27 ultimately depends from currently-amended independent claim 4. Each of the dependent claims 28-33 ultimately depends from currently-amended independent claim 6. Each of the dependent claims 34-38 ultimately depends from currently-amended independent claim 14. Each of the dependent claims 39-43 ultimately depends from currently-amended independent claim 15. No new matter has been added to the application by way of the foregoing amendment.

In light of the foregoing amendment, the Applicants submit claims 1, 3-11 and 13-43 are allowable. Although the Applicants amend the claims as above, they do so without prejudice and with reserving the right to prosecute in a continuation application the claims as originally filed and/or otherwise amended during prosecution.

### **CONCLUSION**

In view of the foregoing, the Applicants believe that all the claims are presently in condition for allowance. Accordingly, both reconsideration of this application and its swift passage to issue are earnestly solicited. If, however, the Office believes that any unresolved issues still exist or if, in the opinion of the Office, a telephone conference would expedite passing the present application to issue, the Office is invited to call the undersigned attorney directly at 732-978-4899 or the office of the undersigned attorney at 732-978-7100 so that appropriate arrangements can be made for resolving such issues as expeditiously as possible.
